RESPONSE TO SEQUENCE LISTING REQUIREMENT

Mail Stop Sequence

Honorable Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

Responsive to the Notice to Comply with Sequence
Listing Rules included in the Notification of Missing
Requirements dated January 22, 2007, applicants state as
follows:

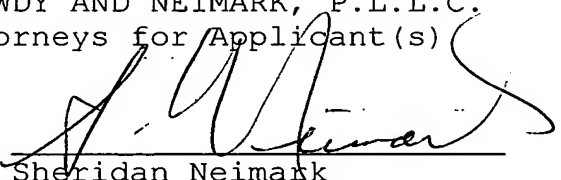

Upon a careful review of the application as filed,
applicants have determined that the text of the application
contains many acronyms but does not contain any sequences with
at least 4 amino acids or 10 nucleotides. Consequently, the
sequence rules do not apply in this matter, and applicants are

proceeding in reliance thereof. In the event that the USPTO has identified sequence disclosures in the instant application that require a sequence identifier and presentation in a sequence listing section, the USPTO is respectfully invited to point out the identified sequence disclosures to the applicants.

Respectfully submitted,

BROWDY AND NEIMARK, P.L.L.C.
Attorneys for Applicant(s)
